ESLAM AYMAN

SOFTWARE ENGINEER | FULL-STACK DEVELOPER

Cairo, Egypt • +20 106 807 8245 • eslamayman2412@gmail.com
LinkedIn: linkedin.com/in/eslam-ayman-0b550527b • Portfolio: eslam8078.is-a.dev • GitHub: github.com/Eslam8078

PROFESSIONAL SUMMARY

Computer Science graduate from Helwan University with hands-on experience building full-stack web applications using Angular, React, Node.js, Express.js, and MongoDB. Skilled in developing RESTful APIs, implementing secure authentication and role-based authorization, and integrating frontend and backend systems. Experienced in AI-powered application development using Python, Flask, TensorFlow, and OpenCV, with a solid understanding of software engineering principles, data structures, and algorithms.

SKILLS

Languages	JavaScript (ES6+), TypeScript, Python, C++, SQL
Frontend	Angular, React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind, Vite, Responsive Design
Backend & Security	Node.js, Express.js, Flask, REST APIs, JWT, Authentication & Authorization, bcrypt
Databases	MongoDB (NoSQL), Mongoose, SQL Server
Networking	TCP/IP, LAN/WAN, Routing & Switching, Subnetting, VLANs, DHCP, DNS, NAT
AI & Computer Vision	TensorFlow, OpenCV , OCR, Handwritten Text Recognition
Tools	Git, GitHub, Postman, Docker, Visual Studio Code
Software Engineering	OOP, Data Structures & Algorithms, MVC, CRUD, Transactions, Validation & Error Handling
Soft Skills	Problem-Solving, Analytical Thinking, Teamwork & Collaboration, Communication, Adaptability, Time Management, Attention to Detail, Continuous Learning

PROJECTS

Looma Store – Full-Stack E-Commerce — GitHub Repository
Angular, TypeScript, Node.js, Express, MongoDB — *Jul 2026 - Sep 2026*

- Built a full-stack e-commerce platform with customer and admin workflows: cart sync, checkout, delivery fees, order and refund lifecycle, notifications and sales reports, with stock validation and price-change detection.
- Secured the application with JWT authentication, bcrypt password hashing and role-based authorization; added soft-delete, Winston logging and backup/restore.

Bus Booking Web Application — GitHub Repository
React.js, Node.js, REST APIs, Bootstrap, CSS3 — *Feb 2024 - May 2024*

- Built a responsive bus booking interface with React.js, Bootstrap and CSS3 using reusable components.
- Integrated REST APIs for user authentication, bus search and seat booking; collaborated in a team using Git and GitHub with pull requests and code reviews.

Handwritten Text Recognition – Graduation Project — GitHub Repository
Python, Flask, TensorFlow, OpenCV, SymSpell, React — *Sep 2023 - May 2026*

- Developed a web app that converts handwritten images to text: a React frontend calling a Flask REST API backed by a trained TensorFlow model.
- Built the recognition pipeline, including image preprocessing, model inference, confidence scoring, and SymSpell spelling correction, achieving 7% Character Error Rate (CER) and 18% Word Error Rate (WER).

EXPERIENCE & TRAINING

Software Developer | Freelance & Academic Projects — *Feb 2024 - Present*

- Designed and built full-stack web applications with Angular, React, Node.js, Express and MongoDB, plus a Flask/TensorFlow AI project, applying REST API design, input validation, authentication and role-based authorization, with Git version control.

MEAN Stack Development Training | National Telecommunication Institute (NTI) — *Jul 2026 - Sep 2026*

- Hands-on training in full-stack development using MongoDB, Express.js, Angular, and Node.js.

EDUCATION

Faculty of Computer Science & Information Systems | Helwan University, Cairo, Egypt — *Oct 2020 - May 2024*

Degree : Bachelor of Computer Science • **GPA:** 3.01 / 4.00 (Very Good)

Coursework : Software Engineering, DBMS, Data Structures & Algorithms, Operating Systems

ADDITIONAL INFORMATION

Languages : Arabic (Native), English (Professional Working Proficiency) • **Military Service:** Completed
