ESLAM AYMAN

Full-Stack Web Developer | MERN & MEAN Stack

Cairo, Egypt | **01068078245** | **Military Status:** Completed | eslamayman2412@gmail.com | LinkedIn | Portfolio | GitHub

SUMMARY

Full-Stack Web Developer with a Bachelor's degree in Computer Science and hands-on experience building responsive web applications with Angular, React.js, Node.js, Express.js, and MongoDB. Strong in RESTful API development, authentication and authorization, database design, reusable UI architecture, and end-to-end feature delivery. Experienced in transactional order workflows, reporting, notifications, and production-minded validation, security, and error handling.

SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, SQL
- **Frontend:** Angular, React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Vite, Responsive Design, React Hooks, Context API
- **Backend & APIs:** Node.js, Express.js, RESTful APIs, Authentication & Authorization, JWT, bcrypt, CORS
- **Databases:** MongoDB (NoSQL), Mongoose, SQL Server
- **Software Engineering & Concepts:** OOP, Data Structures & Algorithms, Problem Solving, CRUD Operations, MVC Architecture, Problem Solving, Transactions, Validation, Error Handling
- **Tools & Deployment:** Git, GitHub, Docker, Vercel, Postman, Visual Studio Code

PROJECTS

E-Commerce Clothing Store
Aug 2026 – Sep 2026

Angular, TypeScript, Node.js, Express.js, MongoDB, Mongoose, JWT, bcrypt | GitHub

- Built a full-stack clothing marketplace with customer and admin workflows covering products, categories, cart, checkout, addresses, orders, testimonials, notifications, and reports.
- Implemented JWT authentication, role-based authorization, bcrypt password hashing, validation, pagination, search/filtering, soft delete/restore, and centralized error handling.
- Engineered transactional order processing with stock validation, price-change detection, delivery-fee calculation, order status history, cancellation/refund workflows, and MongoDB transactions.
- Developed responsive Angular interfaces with reusable components, animations, guest-cart persistence, and cart merging after login; built admin features for sales reports, customer/order management, notifications, seasonal products, and database backup/restore.

Portfolio Management System
Aug 2026 – Aug 2026

Angular, Node.js, Express.js, MongoDB, Mongoose, TypeScript, HTML5, CSS3 | GitHub

- Built a full-stack CRUD platform enabling non-technical users to manage portfolio content without modifying source code.
- Developed RESTful APIs with Node.js and Express.js for CRUD operations on MongoDB using Mongoose, following MVC architecture.
- Structured the Angular frontend with reusable components and responsive interfaces for adding, editing, managing, and displaying dynamic portfolio content.

Bus Booking Web Application
Feb 2024 – May 2024

React.js · Node.js · REST APIs | Team Project | GitHub

- Developed a responsive bus booking interface using React.js, Bootstrap, and CSS3 with reusable and maintainable components.
- Integrated RESTful APIs for user authentication, bus search, and seat booking functionality.
- Collaborated with a development team using Git and GitHub, following pull request and code review workflows.

EXPERIENCE

Web Developer | Personal & Academic Projects
Feb 2021 – Present

- Developed full-stack web applications using React.js, Angular, Node.js, Express.js, MongoDB, and RESTful APIs.
- Applied responsive design, reusable component architecture, and clean coding practices to build maintainable applications.
- Collaborated on team projects using Git and GitHub, following branching strategies, pull requests, and code review workflows.

EDUCATION

Bachelor of Computer Science
Oct 2020 – May 2024

Helwan University, Faculty of Computer Science & Information Systems, Cairo, Egypt

- **Cumulative GPA:** 3.01 / 4.00 (Very Good)
- **Relevant Coursework:** Software Engineering, Database Management Systems, Advanced Web Development, Data Structures & Algorithms, Operating Systems

LANGUAGES

Arabic: Native | **English:** Professional Working Proficiency
