ESLAM AYMAN

Full-Stack Web Developer | MERN & MEAN Stack

Cairo, Egypt | 01068078245 | eslamayman2412@gmail.com | GitHub: github.com/Eslam8078 | LinkedIn: linkedin.com/in/eslam-ayman8078

SUMMARY

Full-Stack Web Developer with a Bachelor's degree in Computer Science and hands-on experience building responsive web applications with Angular, React.js, Node.js, Express.js, and MongoDB. Strong in RESTful API development, authentication and authorization, database design, reusable UI architecture, transactional workflows, validation, security, and centralized error handling.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, SQL

Frontend: Angular, React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Vite, Responsive Design, React Hooks, Context API

Backend & APIs: Node.js, Express.js, RESTful APIs, JWT, bcrypt, CORS, Authentication & Authorization

Databases: MongoDB, Mongoose, SQL Server

Engineering: OOP, MVC, CRUD, Data Structures & Algorithms, Transactions, Validation, Error Handling, Problem Solving

Tools: Git, GitHub, Docker, Vercel, Postman, Visual Studio Code

PROJECTS

EZ Store E-Commerce | Aug 2026

Angular, TypeScript, Node.js, Express.js, MongoDB, Mongoose, JWT, bcrypt

- Built a full-stack MEAN e-commerce platform with customer/admin workflows, product management, cart, orders, and sales analytics.
- Implemented JWT authentication, role-based authorization, password hashing, validation, and production-minded error handling.

Portfolio Management System | Aug 2026

Angular, TypeScript, Node.js, Express.js, MongoDB, Mongoose

- Built a MEAN-stack CRUD platform that allows non-technical users to manage dynamic portfolio content without editing source code.
- Developed RESTful APIs with Express.js and MongoDB/Mongoose using reusable Angular components and responsive interfaces.

Bundle Builder | Jul 2026

React, JavaScript, Vite, Context API, useReducer, LocalStorage

- Built a multi-step React bundle builder with live pricing/review, variant tracking, reducer-based business logic, and persistent local state.
- Separated UI, state, business rules, selectors, and persistence into maintainable layers.

Bus Booking Web Application | Feb 2024 – May 2024

React.js, Node.js, REST APIs, Bootstrap, CSS3

- Developed a responsive booking interface with authentication, bus search, seat booking, reusable components, and REST API integration.
- Collaborated using Git/GitHub with branching, pull requests, and code review workflows.

Handwritten Text Recognition | 2024

Python, Flask, OpenCV, Machine Learning, React.js

- Graduation project for Helwan University combining a React frontend with a Python Flask backend for handwritten text recognition and image-processing workflows.

EXPERIENCE

Web Developer | Personal & Academic Projects | Feb 2021 – Present

- Develop full-stack applications using React.js, Angular, Node.js, Express.js, MongoDB, and RESTful APIs.
- Apply responsive design, reusable component architecture, authentication, validation, and clean coding practices.
- Build end-to-end features including CRUD workflows, transactional orders, reporting, notifications, and admin functionality.
- Collaborate using Git and GitHub through structured branching, pull requests, and code review workflows.

EDUCATION

Bachelor of Computer Science — Helwan University, Faculty of Computer Science & Information Systems, Cairo, Egypt | Oct 2020 – May 2024

GPA: 3.01 / 4.00 (Very Good) | Relevant coursework: Software Engineering, Database Management Systems, Advanced Web Development, Data Structures & Algorithms, Operating Systems

LANGUAGES

Arabic: Native | English: Professional Working Proficiency
